

Arena Sand

This is a washed coarse sand ideal for use in horse riding arenas, practice tracks and as the surface layer of a manège.

Description

MQG's Arena Sand provides a firm stable surface with good grip that feels secure when riding but at the same time allows for a soft landing and will not pack down with repeated use.

It is a washed coarse sand suitable for a wide range of riding styles and ideal for use in horse riding arenas, practise tracks and as the surface layer of a manège. As it offers extremely high drainage it is also ideal for pipe embedment and similar civil sector applications.
