

Premium Concrete Sand

A premium well graded washed sand produced to meet industry requirements for the manufacture of concrete, render and pavers.

Description

MQG's Premium Concrete Sand is suited to a wide range of uses, in particular in concrete intended for kerbs, concrete slabs and driveways, and in concrete based products including pavers and tiles. It is manufactured to meet industry standards and is in demand for construction projects across Melbourne and the South East.

It is a well graded washed sand and one of the premier products from our Quarry at Nyora.

Particle Size Range (% Passing)

Sieve mm	Minimum	Maximum
4.750	98	100
2.360	90	100
1.180	80	93
0.600	60	90
0.300	30	45
0.150	5	15
0.075	0	5
Unwashed PSD AS 1141.11.1		

Available From

Nyora Quarry

Bulk Density

1.6 – 1.8 t/m³

Typical Uses

- Concrete and asphalt production
- Manufacture of tiles, pavers and other concrete products
- Kerbing and concrete slabs
- As a base for pavers and slabs

The above data is from internal and external testing and represents indicative results only which are not guaranteed. This product is screened through an 8mm mesh, material larger than 8mm may still be present. You must satisfy yourself that the product is suitable for the purpose for which you intend to use it. This product may contain organic material. Metro Quarry Group makes no representations as to suitability, fitness or merchantability. Metro Quarry Group does not guarantee specifications for any parameters e.g. Particle Size Distribution, Hydraulic Conductivity, pH, Clay & Fine Silts or Colour as sand is a natural & variable resource.
